Executive Summary

Visionary Consulting Partners, LLC provides a wide range of consultative services designed to increase the ability of healthcare providers, community based organizations and public health agencies to design, implement and manage comprehensive health promotion programs and health behavior interventions. Visionary also provides information technology solutions for healthcare delivery and business process challenges, as well as program and project management services.

Founded in 2008, Visionary focuses on underserved populations. Visionary believes that everyone has the right to optimal health that will transform their lives, and also that will transform the communities in which they live through improved policies and dissemination methods. Visionary is committed to improving the health of traditionally underserved minority populations, including women, children, and Veterans, through focused endeavors in data collection, outreach, scientific research, and implementation.

Visionary has extensive experience working with communities and community-based organizations, both in the private and public sectors, with an emphasis on promoting and implementing programs that help address health disparities in underrepresented segments of society. Visionary’s principal consultants have over sixty years of combined experience in the areas of implementation research, disease management (e.g. asthma), health promotion and health education, health administration, health information technology and management and management of large-scale projects. Our consultants have expertise in education and training, clinical research and statistical analysis, and communications and marketing. We also take pride in our ability to provide Independent Verification and Validation, Compliance, Reporting, Finance and Fiscal Analysis, and Operations Research services to our clients.

Visionary also provides innovative staffing support and personnel augmentation/management services for our clients. With a national and international network of resources, Visionary is readily capable of identifying, recruiting, interviewing, hiring, placing and retaining professional personnel resources that range from entry-level administrative assistants to executive-level professionals that support the highest levels of government and corporate leadership. Visionary is proud to provide Executive and Senior Advisor-level staffing support and comprehensive staff augmentation services to support functions in administrative, clerical, program analysis, and program / project management at varying career levels across disciplines for various government agencies. Visionary also provides a full range of innovative contract procurement support services, with our team executing approximately 1.4 billion dollars in contract actions annually.

Our mission is to provide effective, innovative, and pragmatic solutions for promoting wellness, improving health and quality of life. We welcome the opportunity to serve and support your organization’s mission.
